

ESCLUSIVO CHARTER
LIFE FOR LUXURY

EMERALD

OCEAN EMERALD

This spectacular and contemporary 41 meter masterpiece has been designed with a strong emphasis on space and light and has five suites for up to 12 guests at any one time who will be looked after by a permanent, highly trained crew of seven to cater to their every need. The internal planning of the yacht offers total flexibility to respond to the most discerning requirements of the owners and their guests and keen attention has been paid to design and detail ranging from the internal and external areas to cutlery, crockery, fabrics and crew uniforms. Throughout the yacht's interior, the architects maximized the amount of natural light by incorporating extensive floor-to-ceiling windows and walls of light-colored hardwoods with high-gloss finishes. The design is most successful in the airy master suite, a full-beam residence with two private terraces.
